

I am writing in support of K-LOVE. I donate to this listener-supported radio station, the only one its type in my area. I would be very disappointed if we lost this station. It is the only station in the area to provide commercial-free music all day long. If K-LOVE were to be displaced by an LPFM broadcaster, this type of programming would no longer be available in my area. K-LOVE provides a unique service to our community. Please don't take that away.
